

# P-IDOC-PAD-DSWC

## Prodigy® In-Wall Dock for iPad™

Complete specifications coming soon.

Now the iPad has a home within a Prodigy home. The Prodigy in-wall dock for iPad transforms the iPad into a Prodigy in-wall touchpanel. The iPad easily slides into the side of the stylish docking station and latches flush to the wall. While the iPad charges, the Mobile Pro® G control app enables full system control: adjust lights and climate, select music and movies.

The iPad can be quickly removed from the dock for use as a wireless touchpanel. Simply press on the outer corner and the dock unlatches for iPad removal. Also available, the Prodigy Tabletop Dock for iPad.

> *Flush-mount in-wall dock*

> *Transforms the iPad into an in-wall touchpanel*

> *Charges iPad while in use*

> *Gloss-white finish*
